

# LET US PRAY

I believe in God but so does satan. He seems to be working overtime to spread his evil seed. I like to think that we must be doing something really good for God if satan is working that hard. I have a card with Jesus standing with His arms outspread stating "I never said it would be easy, but it sure will be worth it." So brothers and sisters put on your full armor of God. We are doing battle for the Lord.

Pray for protecting cover of the Blood of Jesus for the entire Mission Bend United Methodist Church staff and volunteers.

Pray for the Mission Bend Christian Academy and volunteers to be covered.

Pray for all the children who attend the school and their families.

Pray for all the small groups that have formed for and from the love of our Lord.

Pray for our country and our president - even if you did not vote for him. He is our leader.

In case I forgot anyone just pray for the person to the right of you and to the left of you. It is something we often do in church, remember?

Help prayer echo through our land. We are children of God and He is depending on us to spread His word.
